The Beauty of Sheesham Wood

Among Indian hardwoods, Sheesham stands out for its rich grain, remarkable strength, and timeless character. A well-crafted side table adds both function and elegance — beside a sofa, lounge chair, or accent seating.

Natural Grain

Every piece carries unique wood patterns

Strong & Durable

Built to last for generations

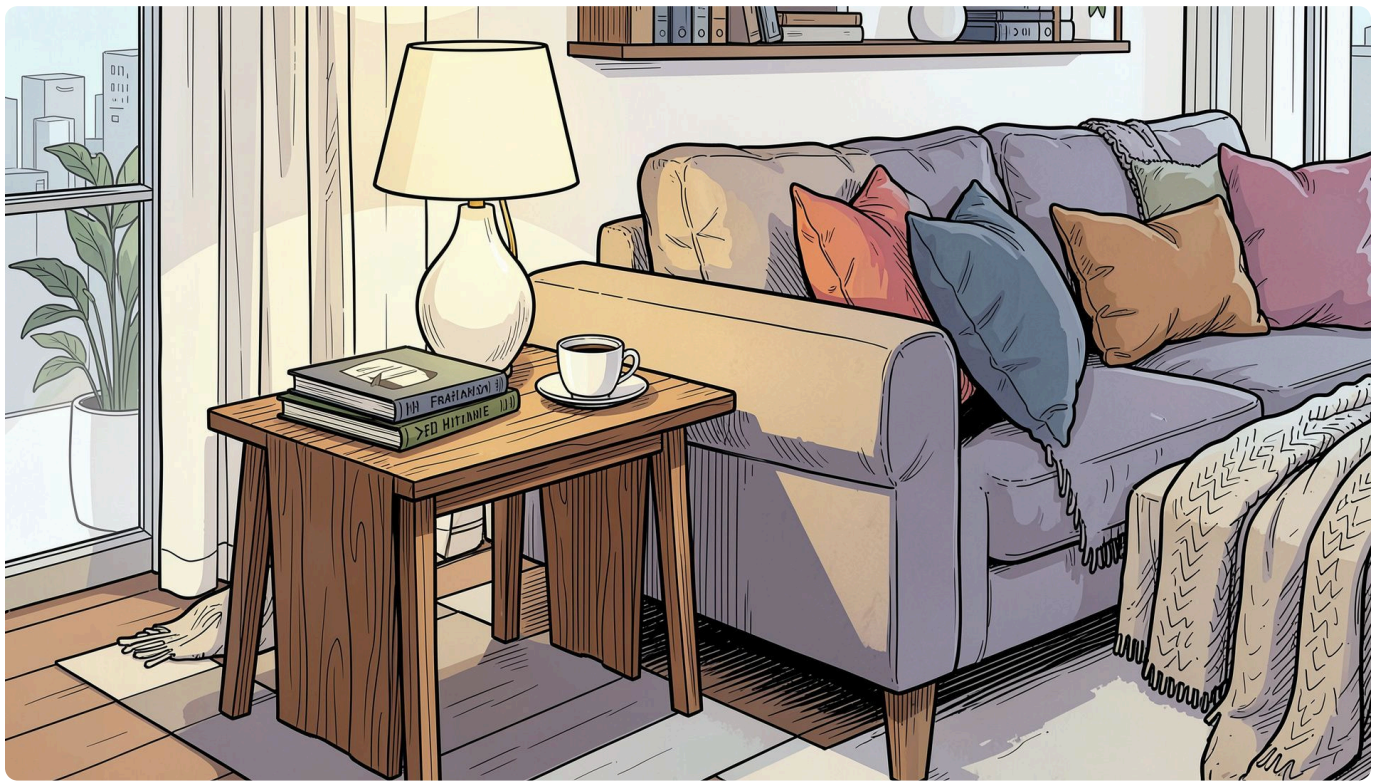
Versatile Style

Suits modern, rustic, and traditional interiors

Customizable

Tailored to your project needs

Why Choose a Solid Wood Side Table?



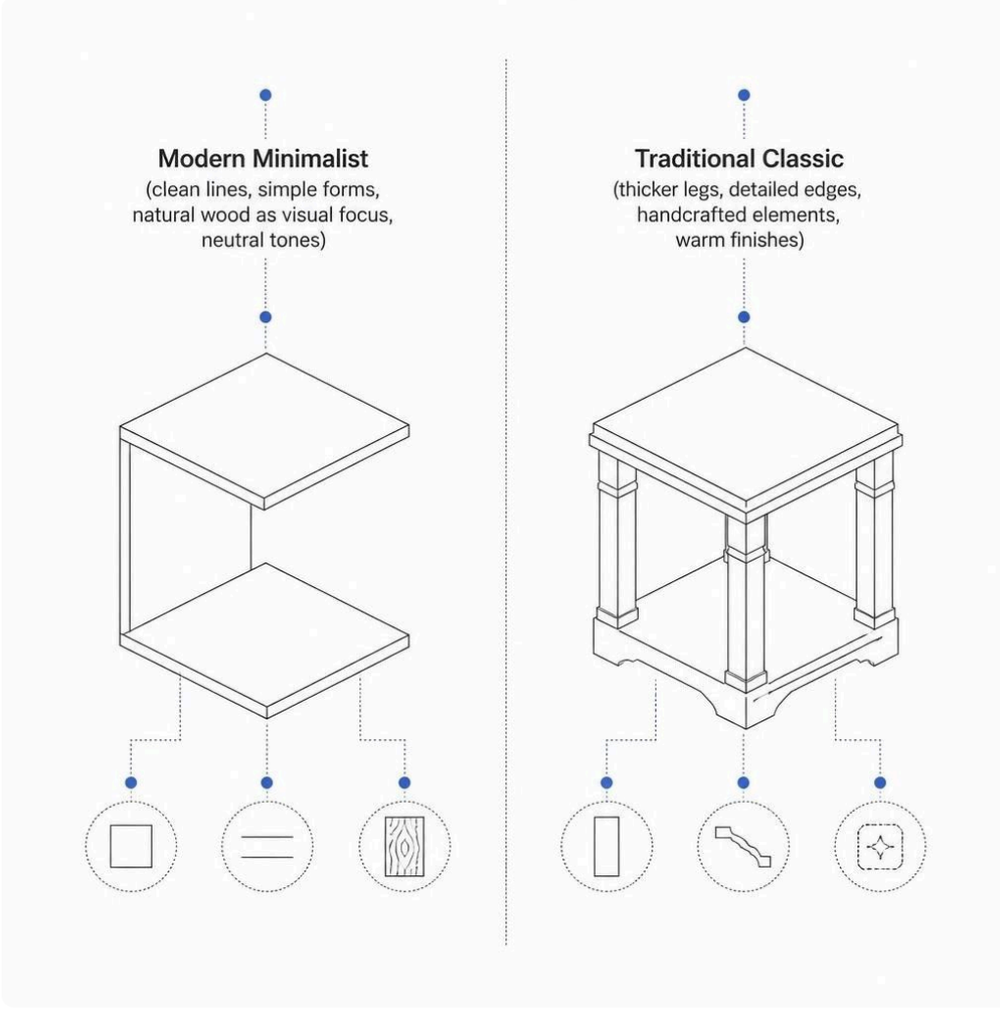
Functional & Beautiful

A compact yet highly functional piece — providing convenient surface space without overwhelming the room. Perfect beside sofas, lounge chairs, or reading nooks.

- Hold lamps, books, and everyday essentials
- Display plants, photographs, and decor
- Complement both minimalist and traditional themes
- Customize size, height, and finish to your space

Natural Grain Meets Contemporary Design

Sheesham wood's distinctive grain makes it a natural fit for interiors where authentic materials take center stage.



Modern Minimalist
(clean lines, simple forms, natural wood as visual focus, neutral tones)
Traditional Classic
(thicker legs, detailed edges, handcrafted elements, warm finishes)

A Table for Every Interior

Whether your space calls for clean, contemporary lines or rich, handcrafted tradition, Sheesham wood adapts beautifully.

- Complements neutral sofas and wooden flooring
- Works with area rugs, indoor plants, and modern lighting
- Earthy décor and contemporary furniture pair naturally

Choose a Design That Fits Your Space

From open shelves to concealed drawers, every configuration serves a purpose.

1. **Open Shelf**
   Extra space for books, magazines, and decorative accessories
2. **Drawer Table**
   Concealed storage for remotes, chargers, and small items
3. **Minimalist**
   Clean tabletop and wooden legs for contemporary spaces
4. **Round Design**
   Softens rooms with straight lines; ideal beside lounge chairs
5. **Customized**
   Tailored dimensions, finishes, and storage for your project

Why Work With a Sheesham Wood Manufacturer?

Flexibility & Consistency

An experienced manufacturer offers greater control over dimensions, wood selection, finish, and storage — whether for a single table or an entire hospitality project.

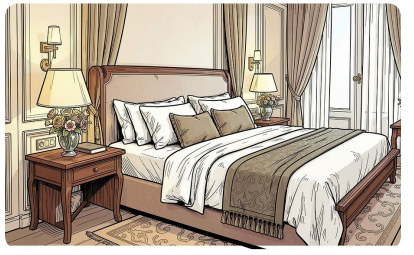
- Furniture built to exact room dimensions
- Consistent design and finish across bulk orders
- Project-specific specifications for hotels and offices
- Direct collaboration with interior designers

Beyond the Living Room

Sheesham wood furniture brings warmth and character to both residential and commercial spaces.

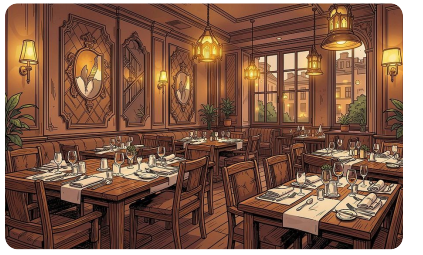
Residential

Living rooms, bedrooms, reading corners, home offices, and lounge areas



Hospitality

Hotel rooms, boutique hotels, resorts, guest lounges, and reception areas



Commercial

Restaurants, offices, and curated commercial interiors requiring durability and style

Designed Around Your Requirements

Standard furniture rarely fits perfectly. Custom Sheesham wood tables are tailored to your exact space and vision.

Size

Select height, width, and depth to fit your available space precisely

Storage

Add drawers, shelves, or closed compartments based on functional needs

Shape

Choose rectangular, square, round, or fully customized shapes

Finish

Select a finish that complements your surrounding furniture and color palette

Why Aakro Crafts?

Aakro Crafts creates wooden furniture that blends natural materials, practical function, and refined design — for homes, hotels, and bespoke projects.

Natural Character
